Meeting point

The RFASC curators will be and active part of Meeting point, a programme for art mediators and writers taking place in the south Sweden during three days September 2009.

Reality and Visions for Independent Curators

Farawaysoclose presents our third publication; Reality and Visions for Independent Curators. The publication is produced in relation with RFASC 2008 and the seminar Time for Change - Reality and Visions for Independent Curators, that took place at Malmö Art Museum 2009. Independent curator Anna Johansson co-ordinated the seminar and was co-editor for the publication.

Texts in the catalogue are summaries from the seminar and texts reflecting upon RFASC 2008. With this publication Farawaysoclose wishes to act as an intermediary putting emphasis on the role and the working conditions of the curator, focusing on the independent curator.
